

COMPANY ANNOUNCEMENT

30 August 2019

Reverse Corp Limited (ASK: REF) – Full Year Results Announcement

Reverse Corp Limited reports revenues of \$7,606,242 with EBITDA (earnings before interest, tax, depreciation & amortisation) of \$91,726 and NLAT (net loss after tax) of \$1,871,845 for the year ending 30 June 2019.

The net loss included significant one-off costs comprising; statutory staff redundancies, write-down of the remaining goodwill in 1800-Reverse, bad debts and transaction costs.

The full year business result meets company guidance and reflects:

- Greater declines in 1800-Reverse due to the loss of Optus mobile billing on 24 August 2018. EBITDA for this business declined 57% to \$687,156
- Our combined online contact lenses business increasing revenue by 21% to \$5,451,719 with an EBITDA loss of \$87,274 which was an improvement on the \$566,202 loss in the previous year

As at 1 July 2019, the company has no operating businesses following the closure of 1800-Reverse and the sale of the online contact lenses business to Coastal Contacts (Aus) Pty Ltd. The employees have been made redundant and all IT systems have been decommissioned with the remaining assets of value sold.

Following the company receiving the proceeds from the online contact lenses business sale, completing the full year accounts and determining final business closedown costs, the Directors declared a 2.75c fully-franked special dividend payable on 2 September 2019.

The Board is now focused on identifying the best option for the sale of the ASX-listed shell comprising the following assets:

- \$110,000 in cash
- \$140,000 due 1 July 2020 from the holdback on the online contact lenses business sale
- \$3,300,000 in franking / imputation credits

Reverse Corp Limited (ASX: REF) has 92,860,562 shares on issue and 460 shareholders.

DIRECTORS' REPORT

Your directors present their report on the company and its controlled entities for the financial year ended 30 June 2019.

Directors

The names of directors in office at any time during or since the end of the year are:

Mr Peter D Ritchie – Chairman

Mr Richard L Bell

Mr Gary B Hillberg

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Principal Activities

The principal activity of the consolidated entity during the financial year was the provision of reverse charge calling services. There were no significant changes in the nature of the consolidated entity's principal activities during the financial year.

Operating Results

Net loss after tax (NLAT) for the year to 30 June 2019 was \$1,871,845, including discontinued operations, which represented a decline of 272% compared to the previous year.

Group revenue for the year was \$7,606,242 which was down 5.6% from \$8,057,347 last year, including discontinued operations, while earnings before interest, tax, depreciation & amortisation (EBITDA) declined 84% to \$91,726.

Group earnings were again underpinned by the 1800-Reverse service where revenue decreased 39% on the previous year to \$2,154,523 and EBITDA decreased 57% to \$687,156. These declines were anticipated given the product's maturity and the loss of the Optus volumes in August 2018.

Our combined online contact lenses business achieved total revenue for the year of \$5,451,719 which was up 21% on last year. This division recorded an EBITDA loss of \$87,274 for the year which was an improvement on the \$566,202 lost in the previous year.

Review of Operations

Reverse Charge Calling. Total calls declined 39% following the anticipated market declines and the loss of Optus call volumes on 24 August 2018. A final 5% price increase was implemented on 1 November 2018 on calls-to-fixed lines where we still had the ability to alter pricing. Minor savings were achieved in Customer Service following reduced operating hours. Management focus remained ensuring operational continuity up until the business closedown which commenced 1 July 2019. This closedown was a result of the termination on 30 June 2019 of the agreement with Telstra permitting 1800-Reverse to bill calls to Telstra mobiles. The Telstra change combined with the inability to bill calls to Optus mobiles from 24 August 2018, has resulted in the service becoming unviable.

Online Contact Lenses. Revenue in our lead brand OzContacts.com.au increased by 36% to \$3,423,951. Our key secondary retention brands of NetOptical.com.au and WebContacts.com.au increased revenue by 1% and 6% respectively. WebContacts also benefited from the flow through of a full year of revenue following our acquisition in August 2017. OzContacts benefitted from a more efficient marketing approach which built on the learnings from the previous year where we invested significantly in marketing activity. The business remains in growth phase and requires further investment in order to deliver a significant positive contribution to group earnings.

Following the closure of the profitable 1800-Reverse business which had enabled ongoing investment in the Online Contact Lenses business, the Board decided that the best return for shareholders would be to sell the business and return all remaining company funds to shareholders. Following a tender process which commenced in August 2018, the sale of the business to Coastal Contacts (Aus) Pty Ltd for \$2,853,208 (subject to customary

Reverse Corp Limited ABN 16 085 949 855 and Controlled Entities

DIRECTORS' REPORT

adjustments mechanisms) was completed on 1 July 2019.

Financial Position

The company generated operating cash flows of \$359,115 up 246% compared to the previous year of (\$246,708). The balance sheet remains conservatively geared with net cash at year-end of \$374,039.

Significant Changes in State of Affairs

In the opinion of the directors there were no other significant changes in the state of affairs of the consolidated entity during the financial year not otherwise disclosed in this report or the consolidated financial statements.

Events arising since the end of the Reporting Period

1800-Reverse ceased to trade at 11:59pm on 30 June 2019. Throughout July 2019 the 1800-Reverse platform has been decommissioned and final Customer Service queries have been resolved. The sale of the Online Contact Lenses business was completed on 1 July 2019. All full time, including executive management and part time 1800-Reverse and Online Contact Lenses staff were made redundant on 28 June 2019 and 1 July 2019. Total staff redundancy costs were \$635,136 which were provided for as at 30 June 2019.

The Directors declared a 2.75c fully franked special dividend on 15 August 2019 payable on 2 September 2019.

The company continues to explore options for the sale of the listed shell.

No other matters or circumstances, other than the 1800-Reverse closure, Online Contact Lenses business sale, executive staff redundancies and the declared dividend have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial years.

Likely Developments, Prospects and Business Strategies

Given 1800-Reverse has closed and the Online Contact Lenses business has been sold, the Company has no operating businesses. The remaining company priorities are:

1. Maximising the value of the remaining assets of the Company
2. Identifying the best option to sell the existing ASX listed shell
3. Finalising the year-end special dividend payable on 2 September 2019

DIRECTORS' REPORT

Proceedings on Behalf of the Company

No person has applied for leave of Court under section 237 of the Corporations Act 2001 to bring proceedings on behalf of the company or intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or any part of those proceedings. The company was not a party to any such proceedings during the year.

Non-audit Services

The Board of Directors, in accordance with advice from the Audit and Risk Committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the audit committee prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided do not compromise the general principles relating to auditor independence as set out in the APES 110: Code of Ethics for Professional accountants set by the Accounting Professional and Ethical Standards Board.

The following fees for non-audit services were paid during the year ended 30 June 2019, or are payable, to the external auditors:

DIRECTORS' REPORT

Remuneration Report – Audited

The Directors of Reverse Corp Limited present the Remuneration Report for Non-Executive Directors and Key Management Personnel, prepared in accordance with the *Corporations Act 2001* and the *Corporate Regulations 2001*.

(a) Principles used to determine the nature and amount of remuneration

Remuneration policy

The remuneration policy of Reverse Corp Limited has been designed to align key management personnel objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific short-term and long-term incentives based on key performance areas affecting the consolidated entity's financial results. The Board of Reverse Corp Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best key management personnel to run and manage the consolidated entity, as well as create goal congruence between key management personnel and shareholders.

The Board's policy for determining the nature and amount of remuneration for key management personnel of the consolidated entity is as follows:

- The remuneration policy, setting the terms and conditions for the key management personnel, was developed by the Remuneration and Nomination Committee and approved by the Board.
- Key management personnel may receive a base salary (which is based on factors such as length of service and experience), superannuation, fringe benefits, options, employee share schemes and performance incentives.
- The Remuneration and Nomination Committee reviews key management personnel packages annually by reference to the consolidated entity's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries.

The performance of key management personnel is measured against criteria agreed annually with each individual and is based predominantly on the forecast growth of the consolidated entity's profits and shareholders' value. All bonuses and incentives are linked to predetermined performance criteria. The Board may, however, exercise its discretion in relation to approving incentives, bonuses, shares and options, and can recommend changes to the committee's recommendations. Any changes must be justified by reference to measurable performance criteria. The policy is designed to attract the highest calibre of key management personnel and reward them for performance that results in long-term growth in shareholder wealth.

Key management personnel are also entitled to participate in the employee share and option arrangements.

Key management personnel employed in Australia receive a superannuation guarantee contribution required by the government, which is currently 9.5%, and do not receive any other retirement benefits. Some individuals, however, have chosen to sacrifice part of their salary to increase payments towards superannuation.

All remuneration paid to key management personnel is valued at the cost to the company and expensed. Options and shares are valued using a binomial methodology.

The Board's policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The Remuneration and Nomination Committee determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Fees for non-executive directors are not linked to the performance of the consolidated entity. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the company and are able to participate in the employee option plan.

The company has adopted a policy in respect of directors and executives trading in the company's securities. No formal policy has been adopted regarding directors and executives hedging exposure to holdings of the company's securities and no director or executive has hedged their exposure.

DIRECTORS' REPORT

Relationship between Remuneration Policy and Company Performance

The remuneration policy has been tailored to increase goal congruence between shareholders, directors and executives. Two methods are applied to achieve this aim, the first being a performance-based bonus based on key performance indicators, and the second being the issue of shares under an employee share scheme to key management personnel to encourage the alignment of personal and shareholder interests. The company believes this policy will be effective in increasing shareholder wealth.

The key performance indicators (KPIs) are set annually, with a certain level of consultation with key management personnel to ensure buy-in. The measures are specifically tailored to the area each individual is involved in and has a level of control over. The KPIs target areas the Board believes hold greater potential for group expansion and profit, covering financial and non-financial as well as short and long-term goals. In determining whether or not a KPI has been achieved, Reverse Corp Limited bases the assessment on audited figures.

Voting and comments made at the Company's last Annual General Meeting

Reverse Corp received more than 99% of 'yes' votes on its Remuneration Report for the financial year ending 30 June 2018. The Company received no specific feedback on its Remuneration Report at the Annual General Meeting.

The following table shows the gross revenue, profits and dividends for the last 5 years for the listed entity, as well as the share prices at the end of the respective financial years. The Board is of the opinion that the previously described remuneration policy will result in increased shareholder wealth.

	2015	2016	2017	2018	2019

DIRECTORS' REPORT

(c) Employment contracts of key management personnel

The employment conditions of key management personnel are formalised in contracts of employment. All management personnel are permanent employees of 1800 Reverse Operations Pty Ltd or Oz Contacts Pty Ltd.

The employment contracts stipulate a range of one to four-month resignation periods. The company may terminate an employment contract without cause by providing written notice or making payment in lieu of notice, based on the individual's annual salary component together with a redundancy payment. Termination payments are generally not payable on resignation or dismissal for serious misconduct. In the instance of serious misconduct, the company can terminate employment at any time.

(d) Share-based remuneration

The Board implemented an Employee Loan Funded Share Plan during the 2015 financial year to provide key management personnel an incentive in a tax effective manner to better align the interests of the participants with the interests of Shareholders. No share-based remuneration was paid during the financial year.

The terms of the Loan Funded Share Plan are such that participants receive an upfront entitlement to a certain number of shares with a corresponding limited recourse loan. The loan is interest free and is provided for a maximum term of 3 years. The shares are subject to a holding lock until the loan is repaid. There are no vesting conditions on these shares.

(e) Bonuses included in remuneration

The details of the short-term incentive cash bonuses awarded as remuneration to each key management personnel, the percentage of the available bonus that was paid in the financial year, and the percentage that was forfeited because the person did not meet the performance criteria is set out below. The performance criteria included revenue and EBITDA business targets as well as completion of key IT enabling projects.

	Included in remuneration (\$)	Percentage vested during the year	Percentage forfeited during the year
Key Management Personnel			
Charles Slaughter ^{1, 2}	46,382	85%	15%
Dion Soich ²	16,580	85%	15%
Michael Aarts ¹	97,815	90%	10%

1. Charles Slaughter and Michael Aarts were paid additional discretionary bonus' of \$25,000 and \$80,000 respectively, which were included in the table above.
2. Charles Slaughter and Dion Soich were paid a discretionary bonus for the completion of the Contact Lens Division sale of \$50,000 each respectively. This amount was paid on 1 July 2019.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report is a general-purpose financial report that has been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The financial report covers the consolidated entity of Reverse Corp Limited and controlled entities ("consolidated group" or "group"). Reverse Corp Limited is a listed public company, incorporated and domiciled in Australia. Reverse Corp Limited is a for-profit entity for the purpose of preparing the financial statements.

The financial report of Reverse Corp Limited and controlled entities comply with all Australian Accounting Standards, which ensures that the financial report comprising the financial statements and the notes thereto, complies with International Financial Reporting Standards (IFRS).

The following is a summary of the material accounting policies adopted by the consolidated entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Basis of Preparation

Reporting Basis and Conventions

Except for the cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Accounting Policies

Changes in accounting policies – new and amended standards adopted by the Group

Revenue

AASB 15 replaces AASB 118 *Revenue*, AASB 111 *Construction Contracts* and several revenue-related Interpretations. The new standard is based upon the principle that revenue is recognised when control of a good or service transfers to a customer. The new standard has had no impact on the financial statements.

Financial Instruments

AASB 9 *Financial Instruments* replaces AASB 139 *Financial Instruments: Recognition and Measurement* requirements. It makes major changes to the previous guidance on the classification and measurement of financial assets and introduces an 'expected credit loss' model for impairment of financial assets.

The new standard has had no impact on the financial statements.

The applicable newly adopted standards have updated in detail in the below Revenue and Financial Instrument sections.

Basis of Consolidation

The Group financial statements consolidate those of the parent entity and all of its subsidiaries as of 30 June 2019. The parent controls a subsidiary if it is exposed, or has rights, to variable returns from the involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary.

All subsidiaries have a reporting date of 30 June.

All balances and transactions between Group companies in the consolidated entity have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the parent entity.

Where controlled entities have entered or left the consolidated group during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased.

Reverse Corp Limited ABN 16 085 949 855 and Controlled Entities

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(a) Business Combinations

Business combinations occur where control over another business is obtained and results in the consolidation of its assets and liabilities. All business combinations are accounted for by applying the purchase method. The purchase method requires an acquirer of the business to be identified and for the cost of the acquisition and fair values of identifiable assets, liabilities and contingent liabilities to be determined as at acquisition date, being the date that control is obtained. Cost is determined as the aggregate of fair values of assets given, equity issued and liabilities assumed in exchange for control together with costs directly attributable to the business combination. Any deferred consideration payable is discounted to present value using the entity's incremental borrowing rate.

Goodwill is recognised initially at the excess of cost over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If the fair value of the acquirer's interest is greater than cost, the surplus is immediately recognised in profit or loss.

(b) Income Tax

The charge for current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantially enacted by the statement of financial position date.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available against which deductible temporary differences can be utilised.

Deferred tax is accounted for using the statement of financial position liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the economic entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility proposed by law.

Reverse Corp Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. Reverse Corp Limited is responsible for recognising the current and deferred tax assets and liabilities for the tax consolidated group. The group notified the Australian Taxation Office on 9 December 2004 that it had formed an income tax consolidated group to apply from 1 July 2003. The tax consolidated group has entered into a tax sharing agreement and a tax funding agreement whereby each company in the group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the tax consolidated group.

Prior to lodging its 2018 income tax return, the Reverse Corp Tax Group elected to add the Oz Contacts Tax Group to the tax consolidation group effective 1 July 2017.

(c) Inventories

Inventories are measured at the lower of cost and net realisable value. Included in inventories are contact lenses and associated accessories including drops and solutions sold online by Oz Contacts Pty Ltd, Net Optical (Aust.) Pty Ltd, WebContacts Pty Ltd and YourContacts Pty Ltd.

Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(d) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment, motor vehicles and the calling platform are measured on the cost basis.

The cost of fixed assets constructed within the consolidated entity includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets, excluding the calling platform, are depreciated on a diminishing value basis over their useful lives to the consolidated entity commencing from the time the assets are held ready for use. The calling platform is depreciated on a straight -line basis over its useful life.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Plant and equipment	11.25% to 40%
Calling Platform	20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(e) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that are transferred to entities in the consolidated entity are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives and the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease term.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(f) **Financial Instruments**

Recognition

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transactional costs, except for those carried at fair value through profit or loss, which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below:

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset and substantially all of the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with AASB 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

Subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets, other than those designated and effective as hedging instruments, are classified into the following categories upon initial recognition:

financial assets at amortised cost

- financial assets at fair value through profit or loss (FVPL)
- debt instruments at fair value through other comprehensive income (FVOCI)
- equity instruments at fair value through other comprehensive income (FVOCI)

Classifications are determined by both:

- The entity's business model for managing the financial asset
- The contractual cash flow characteristics of the financial assets

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

Impairment of financial assets

AASB 9's new impairment model use more forward looking information to recognize expected credit losses - the 'expected credit losses (ECL) model'. The application of the new impairment model depends on whether there has been a significant increase in credit risk.

The Group considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ('Stage 1') and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ('Stage 2').

'Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

'12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(f) Financial Instruments (cont.)

Trade and other receivables and contract assets

The Group makes use of a simplified approach in accounting for trade and other receivables as well as contract assets and records the loss allowance at the amount equal to the expected lifetime credit losses. In using this practical expedient, the Group uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.

The Group assess impairment of trade receivables on a type of receivable basis as they possess credit risk characteristics based on the class of receivable. The Group provides for all receivables it deems unlikely to collect after 60 days and write off fully all amounts when the likelihood of collection is less than 5%.

All financial assets, except for those at fair value through profit or loss (FVPL) and equity investments at fair value through other comprehensive income (equity FVOCI), are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired.

Classification and measurement of financial liabilities

As the accounting for financial liabilities remains largely unchanged from AASB 139, the Group's financial liabilities were not impacted by the adoption of AASB 9. However, for completeness, the accounting policy is disclosed below.

The Group's financial liabilities include borrowings, trade and other payables and derivative financial instruments.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Group designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

The Group doesn't designate any interest in subsidiaries as being subject to the requirements of AASB 9

(g) Impairment of Non-financial Assets

At each reporting date, the group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

Reverse Corp Limited ABN 16 085 949 855 and Controlled Entities

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(h) Intangibles

Goodwill

Goodwill on consolidation is initially recorded at the amount by which the purchase price for a business or for an ownership interest in a controlled entity exceeds the fair value attributed to its net assets at the date of acquisition. Goodwill on acquisition of subsidiaries is included in intangible assets. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Patents and trademarks

Patents and trademarks are recognised at cost of acquisition. Patents and trademarks have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Patents and trademarks are amortised over their useful life ranging from 10 to 20 years.

Research and development

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably.

Development Costs, Contractual Rights and Customer Databases

Development costs have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful life of the project. Useful lives are generally 5 years.

Intellectual Property

All other intangible assets are recorded at cost less impairment and have indefinite life.

(i) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of each of the group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the income statement, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the income statement.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(j) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. Those cash flows are discounted using market yields on high quality corporate bonds that have maturity dates that match the expected timing of cash flows.

Share-based payment transactions

The group provides benefits to employees (including directors) in the form of share-based payments, whereby employees render services in exchange for rights over shares or options. The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date'). The total amount to be expensed over the vesting period is determined by reference to the fair value of the shares or options granted.

(k) Provisions

Provisions are recognised when the group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

(l) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

(m) Revenue

Revenue arises for the 1800 Reverse product from reverse charge calls is recognised on the day the call is completed for calls ending on a fixed line and when the call is billed for calls ending on a mobile line.

Revenue from the sale of contact lenses is recognised when the control of the goods have passed to the customer. Control of the goods are considered passed to the customer when the contact lenses have been despatched.

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

All revenue is stated net of the amount of goods and services tax (GST).

(n) Borrowing Costs

Borrowing costs are expensed in the period in which they are incurred.

(o) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

Reverse Corp Limited and its wholly-owned Australian subsidiaries have formed a GST group effective 1 April 2003. Oz Contacts Pty Limited and its wholly-owned Australian subsidiaries have formed a GST group effective 1 July 2016. The impact of forming a GST group is GST is not charged on taxable supplies

between members of the group.

(p) **Comparative Figures**

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(q) **Critical accounting estimates and judgments**

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

Key estimates — Impairment

The group assesses impairment at each reporting date by evaluating conditions specific to the group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates. For additional details relating to the testing of goodwill impairment refer to Note 26(d): Goodwill and other Intangible Assets.

(r) **Going Concern**

Notwithstanding that the consolidated entity incurred an operating loss after tax of \$1,871,845 for the year ended 30 June 2019 and the closure of the profitable 1800 Reverse charge calling business and the sale of the Contact Lens business, the financial report has been prepared on a going concern basis, which assumes the realisation of assets and the settlement of liabilities in the ordinary course of business. The Group has cash reserves of \$0.4m at balance date and with the proceeds from the sale of the Contact Lens business settling on 1 July 2019 of \$2.7m, less executive redundancies of \$368,214 paid on 1 July 2019 and the dividend declared of \$2,553,665 will have sufficient cash reserves. The Group has reduced its operating costs to a minimal level whilst it explores all options for selling the listed shell. The Group has further options of delisting to further reduce compliance costs or can raise additional funds on the ASX should these funds be needed.

At the date of this report and having considered the above factors, the directors are confident the consolidated entity will be able to continue as a going concern.

Should all of the above assumptions not eventuate, there exists a material uncertainty regarding the Company's and Group's ability to continue as a going concern and realise its assets and liabilities in the normal course of business and at the amounts stated in the financial statements.

Note 15: Tax			
(a) Current

(b) Income Tax

The Group has reviewed the carried forward tax losses of the Group in accordance with AASB 112 Income Taxes to assess whether these continue to meet the criteria for recognition as a deferred tax asset in the Group's Statement of Financial Position. From this review and a wider strategic review and in light of the closure of the 1800 Reverse charge calling business and the sale of the Contact Lens business on the 30 June 2019 it was decided that the probability of the Group to utilise those carried forward losses was uncertain so these carried forward tax losses have been derecognised in full as at 30 June 2019.

These carried forward tax losses are available should the Group produce future profits.

The total of the tax losses are \$2.07m (Deferred Tax Asset of \$568,466).

(c) Capital Gains Tax

Due to the wind up of dormant foreign entities during 2011 the group realised capital tax losses. As a result a deferred tax asset of \$748,000 was generated. This asset, and the corresponding deferred tax benefit, have not been recognised. In 2017 the capital gain on sale of financial assets from the sale of the Onthehouse shares was utilised against the groups realised capital losses (\$207,347). The remaining amount is available for the tax consolidated group to utilise should the group incur a further capital tax gain in future years.

(b) Capital Management

Management controls the capital of the group in order to maintain an appropriate debt to equity ratio, provide shareholders with adequate returns and ensure that the group can fund its operations and continue as a going concern.

The group's capital includes ordinary share capital and financial liabilities, supported by financial assets.

Management effectively manages the group's capital by assessing the group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues.

Management felt it was prudent to hold no group debt to provide maximum financial flexibility for future growth.

Note 21: Segment Reporting

The group has identified its operating segments based on the internal reports that are reviewed and used by management and the Board of Directors in assessing performance and determining the allocation of resources. The operating segments reflect the ongoing needs of the business.

The group is managed primarily on the basis of the operating markets as these markets have different pricing and operating structures. The operating segments are therefore determined on the same basis.

The following table presents the operating segments for the years ended 30 June 2019 and 2018.

Basis of accounting for purposes of reporting by operating segments

All amounts reported to the Board of Directors are determined in accordance with accounting policies that are consistent with those adopted for the annual financial statements of the group.

Segment revenues and expenses are those directly attributable to the segments. Segment assets include all assets used by a segment and consist principally of cash, receivables, inventories, intangibles and property, plant and equipment, net of accumulated depreciation, amortisation and impairment. Segment liabilities consist principally of payables, employee benefits, accrued expenses, and provisions. Segment assets and liabilities do not include deferred income taxes.

Parent entity costs are not allocated across each segment. Segment revenues, expenses and results include transfers between segments. All such transactions are eliminated on consolidation of the group's financial statements. The prices charged on inter-segment transactions are at an arm's length.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Note 23: Events After the Balance Sheet Date

1800-Reverse ceased to trade at 11:59pm on 30 June 2019. Throughout July 2019 the 1800-Reverse platform has been decommissioned and final Customer Service queries have been resolved. The sale of the Online Contact Lenses business was completed on 1 July 2019. 1800-Reverse, including executive management and Online Contact Lenses staff were made redundant on 28 June 2019 and 1 July 2019. Total staff redundancy costs were \$635,136.

The Directors declared a 2.75c fully franked special dividend on 15 August 2019 payable on 2 September 2019. The company continues to explore options for the sale of the listed shell.

No other matters or circumstances, other than the 1800-Reverse closure, Online Contact Lenses business sale, executive staff redundancies and the declared dividend have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial years.

The financial report was authorised for issue on 30 August 2019 by the Board of directors.

Note 24: Related Party Transactions

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

Transactions with related parties:

(a) Subsidiary Companies

At balance date intercompany receivable balances existed between Reverse Corp Limited and its wholly owned subsidiaries. The balance represents the provision of working capital in order to manage operating businesses. The intercompany receivable balance is interest bearing and repayable on demand. At 30 June 2019 the net amount owed by the company to its subsidiaries was \$4,690,514. (2018: \$4,964,930)

Reverse Corp Limited ABN 16 085 949 855 and Controlled Entities

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Note 25: Financial Instruments

(a) Financial risk management objectives and policies

The group's financial instruments consist mainly of cash and short-term deposits.

The main risks arising from the consolidated entity's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk.

The Audit and Risk Committee, in conjunction with management, oversees policies in relation to financial instrument risk management. Future expectations of funding requirements and potential exposures are considered regularly.

Interest rate risk

The group's exposure to market risk for changes in interest rates relates to the group's short-term cash deposits.

At balance date, the consolidated entity had the following mix of financial assets and liabilities exposed to variable interest rate risk that are not designated in cash flow hedges:

	Consolidated Entity	
	2019	2018
	\$	\$
Financial Assets		
Cash and cash equivalents	374,039	5,257,807
	374,039	5,257,807
Financial Liabilities		
Bank loans	-	-
Net Exposure	374,039	5,257,807

The other financial instruments of the consolidated entity that are not included in the above table are non-interest bearing and are therefore not subject to interest rate risk.

There are no other financial instruments held by foreign subsidiaries that are not already translated through the foreign currency translation reserve. On this basis, there is no further impact to the consolidated group to that already disclosed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Note 25: Financial Instruments (cont)

(a) Financial risk management objectives and policies (cont)

The following sensitivity analysis is based on the interest rate risk exposures in existence at the statement of financial position date.

At 30 June 2019, if interest rates had moved as illustrated in the table below, with all other variables held constant, post tax profit would have been affected as follows:

Judgements of reasonable possible movements:	Post Tax Profit	
	Higher/(Lower)	
	2019	2018
	\$	\$
Consolidated		
+1% (100 basis points)	3,743	52,578
-1% (100 basis points)	(3,743)	(52,578)

The movements in profit are due to higher/lower interest on cash balances.

Foreign currency risk

The group has no foreign currency risk at year end.

Credit risk

The credit risk of financial assets of the consolidated entity which have been recognised in the Balance Sheet is generally the carrying amount.

With respect to receivables, the group manages its credit risk by maintaining strong relationships with a limited number of quality customers. The risk is mitigated with specific clauses within the contracts entered into with these quality customers.

The group has one major debtor in the 1800 Reverse business in which it operates and as such has concentrated credit risk. However, the credit quality of each counterparty is considered appropriate and accordingly the group's exposure to credit risk is considered to be low.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Note 26: Assets and disposal groups classified as held for sale and discontinued operations

(a) Online Contact Lenses

The Company, at the 2018 AGM, advised shareholders that it was looking at all options for the Contact Lens businesses post the closure of the 1800 Reverse business on 1 July 2019. These options included a potential sale of the Contact Lens businesses. The Board determined the criteria in AASB 5 Non-Current Assets Held for Sale and Discontinued Operations were met prior to 30 June 2019 and therefore have classified these assets and liabilities as being held for sale and disclosed the discontinued operations.

Operating loss of Oz Contacts Pty Ltd and subsidiaries until the date of disposal and the profit or loss from re-measurement and disposal of assets and liabilities classified as held of sale is summarised as follows:

	2019	2018
	\$	\$
Revenue	5,451,719	4,518,712
Other revenue	4,130	-
Direct costs associated with revenue	(4,772,566)	(4,214,087)

Oz Contacts Pty Ltd and subsidiaries was sold to Coastal Contacts (Aus) Pty Ltd for \$2,853,208 (subject to customary adjustment mechanisms) including a holdback amount of \$140,000 on 1 July 2019.

(b) Reverse Charge Calls

In October 2018, 1800 Reverse Pty Ltd and Telstra Corporation Limited's Reverse Charge Facilitation Agreement, which was due to expire on 1 December 2019, was amended to terminate earlier on 30 June 2019. A further mobile terminating billing agreement with Telstra was also amended to terminate on 30 June 2019. These Telstra changes combined with the inability to bill calls to Optus mobiles from 24 August 2018, resulted in the service becoming unviable post 30 June 2019. The Board determined the criteria in AASB 5 Non-Current Assets Held for Sale and Discontinued Operations were met prior to 30 June 2019 and therefore have classified these assets and liabilities as being held for sale and disclosed the discontinued operations.

2. the Chief Executive Officer and Chief Financial Officer have declared that:
 - (a) the financial records of the company for the financial year have been properly maintained in accordance with section 286 of the *Corporations Act 2001*;
 - (b) the financial statements and notes for the financial year comply with the Accounting Standards; and
 - (c) the financial statements and notes for the financial year give a true and fair view.

3. in the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Mr. Peter Ritchie
Chairman

Dated this 30th day of August 2019

Independent Auditor's Report

To the Members of Reverse Corp Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Reverse Corp Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2019, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and the Directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a giving a true and fair view of the Group's financial position as at 30 June 2019 and of its performance for the year ended on that date; and
- b complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 1(r) in the financial statements, which indicates that the Group incurred an operating loss after tax of \$1,871,845 during the year ended 30 June 2019, and the closure of the profitable 1800 Reverse charge calling business and the sale of the contact lens business. As stated in Note 1(r), these events or conditions, along with other matters as set forth in Note 1(r), indicate that a material uncertainty exists that may cast doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the *Material uncertainty related to going concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Information other than the financial report and auditor's report thereon

The Directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2019, but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

Responsibilities of the Directors for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf. This description forms part of our auditor's report.

Report on the remuneration report

Opinion on the remuneration report

We have audited the Remuneration Report included in pages 7 to 11 of the Directors' report for the year ended 30 June 2019. In our opinion, the Remuneration Report of Reverse Corp Limited, for the year ended 30 June 2019 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
